DropStop[®] wine breather

DropStop® wine breather – Wine needs air

With our DropStop® wine breather we have taken the simplicity of the original DropStop® and integrated an aeration function to the award winning design. Replace your decanter with the DropStop® wine breather and release the flavour of your wine, all in the time it takes to pour a glass!

The DropStop® wine breather is simple, it aerates and you won't spill a drop! Using the DropStop® wine breather in a promotional campaign is a terrific way to display your logo or message. A single wine breather lasts for several years. This means that your logo will be displayed again and again every time the wine breather is used.

We use full colour digital printing for state of the art results!
